About Grammar

Dr Wee Bee Geok

The About Grammar series is a product of many 'firsts'. It is:

- The first grammar series developed in collaboration with the Ministry of Education.
- The first series based on the English Language Syllabus 2010.
- The first to teach grammar explicitly using an approach where meaning is emphasised.

Practice 1

LC_Practice 1

In this listening practice, you will listen to a total of seven texts. Each text will be read twice. Listen carefully to the text that is read to you and answer the questions that follow. Write your answers (1, 2 or 3) in the brackets provided. You may answer the questions at any time during the practice.

Text 1

1. Which picture shows the animal that attacked Madam Lateef?

()

2. Where did the attack happen?

()

Practice 1

Text 2

3. Where did Jermaine go just before she bought the fruits?

()

4. Which of the three lines shows the route taken by Jermaine during her trip to the shops?

- 1 ()
- 2 - - - - - ()
- 3 _____ ()

11

Class Series: Mastering Comprehension

Kristen Teo, Lee Yoke Ling

Develop the skills and techniques needed for answering the comprehension segment of the English examination paper, in line with the latest Ministry of Education English syllabus.

- Feel confident in the knowledge that you are fully prepared with both segments of the Comprehension exam paper covered thoroughly, Visual Text and Text-based questions.
- Comprehend passages better by learning the four key skills needed.
- Benefit from advice in each section to help improve key skills, including your knowledge of the types of questions that commonly appear in comprehension papers.
- Reinforce key skills and get ready for the exam with practice papers including questions with a variety of difficulty levels to help develop mastery, and notes and tips on how to answer them.
- Prepare for the exam with full exam practice papers for familiarisation of format.
- Encourage independent study with an answer guide explaining 'correct' answers.

Cycles

REVISION NOTES

A. Life Cycles of Animals

1. What is a cycle?

A cycle is a pattern of change that repeats itself. An example is the cycle of day and night.

2. What is a life cycle?

All the stages of an animal's life make up its life cycle. The life cycle ensures that its kind will always be around on Earth.

3. What are some examples of animal life cycles?

The life cycle of a human

- The life cycle of a human has three stages — egg, young (baby) and adult.
- An egg develops into a baby inside the mother's body.
- The baby is born and looks like the adult.
- The baby grows into an adult who is able to reproduce.

Cycles 87

The life cycle of a chicken

- The life cycle of a chicken has three stages — egg, young (chick) and adult.
- The egg is laid on land by a female chicken called a hen.
- A chicken egg has a hard covering called an eggshell which protects the young animal growing inside.
- The egg hatches into a chick, which looks like the adult.
- The chick grows into an adult which is able to reproduce.

The life cycle of a frog

- The life cycle of a frog has three stages — egg, young (tadpole) and adult.
- The female frog usually lays eggs in water. The eggs are covered in a jelly-like coating.

88 Cycles

About Science Challenging Questions

LOWER SECONDARY COMPUTING

Computing Course for Lower Secondary **NEW**

Margaret Debbadi, Siobhan Matthewson

Deliver an exciting computing course for ages 11-14, providing full coverage of Digital Literacy, Computer Science and Information and Communications Technology objectives.

The course is mapped to the Cambridge Assessment International Education Digital Literacy Framework for Stages 7-9 and has been written specifically for students where English is not their first language.

- Ensure progression, with a clear pathway of skill steps building on previous experience and knowledge.
- Recap and activate students' prior knowledge and skills with Do you remember? panels.
- Demonstrate and practise new concepts and skills with Learn and Practice activities.
- Introduce more challenging skills and activities with Challenge yourself! tasks.
- Allow students to demonstrate their knowledge and skills creatively with engaging end of unit projects.
- Broaden knowledge and understanding with Go further activities that apply skills and concepts in different contexts.
- Develop computational thinking with an emphasis throughout the activities.
- Provide clear guidance on e-safety with a strong focus throughout.
- Guide students on Computing project work with a dedicated chapter on project work.

The Student Books are supported by a free Teacher Guide for each stage containing lesson plans, assessment guidance and other resources.

Effective Guide for Lower Secondary

Mervyn Blake

Provide effective guidance to help students master the skills needed for success in Lower Secondary English, in line with the latest English syllabus and examination format issued by the Ministry of Education, Singapore.

- Develop skills with a step-by-step approach and concise explanations for each section of the exam: grammar, essay writing, comprehension, and listening and oral communication.
- Strengthen foundations in grammar and vocabulary, as well as the understanding of different text types and mixed texts needed for the exam.
- Revise and reinforce knowledge with practice questions, exercises and end-of-term practice papers.
- Prepare for the examination with examination tips and worked examples.
- Encourage self-assessment and analysis with answers provided in the back of the book.

\$16.75

All About English: Effective Guide for Lower Secondary **9789814767095**

SUFFIXES

- Related grammatical concepts: Noun, Verb, Adverb

A suffix is a part of a word that can show the plural form, tense or change its word class.

Examples:

eat + s → eats
 noun suffix noun (plural form)

wait + ed → waited
 verb suffix verb (past tense)

arrogant + ce → arrogance
 adjective suffix word class is changed from adjective to noun

In some cases, the word class is not changed.

Examples:

parent + hood → parenthood
 noun suffix still a noun

relation + ship → relationship
 noun suffix still a noun

stand + ing → standing
 verb suffix still a verb

The table below summarises other examples that reflect how suffixes can change word class.

Verb	Suffix	Noun
decide	-sion	decision
collide	-sion	collision
examine	-tion	examination
collect	-tion	collection
enjoy	-ment	enjoyment
govern	-ment	government
persevere	-ance	perseverance
assure	-ance	assurance
deter	-ence	deterrence
indulge	-ence	indulgence

Adjectives	Suffix	Noun
aggressive	-sion	aggression
cohesive	-sion	cohesion
happy	-ness	happiness
sad	-ness	sadness
clear	-ance	clearance
reliant	-ce	reliance
elegant	-ce	elegance
affluent	-ce	affluence
present	-ce	presence
responsible	-ity	responsibility
probable	-ity	probability

In the case of **-hood** and **-ship**, they are typically attached to nouns to form another noun.

Noun	Suffix	Noun
neighbour	-hood	neighbourhood
parent	-hood	parenthood
child	-hood	childhood
friend	-ship	friendship
relation [Relate (verb) + -tion]	-ship	relationship

NOUNS

In simple words, **nouns** are words that name **things**. These include **places, objects, events, people** and **animals**. Here are various examples.

Places	Objects	Events	People	Animals
school	table	birthday	grandfather	whale
home	book	anniversary	mother	dog
park	stroller		friend	bird
airport	laptop		aunt	elephant
library	grass		cousin	kangaroo

All About English: Effective Guide for 'O' Level English (4th Edition)

Mervyn Blake

Master the skills needed for success in the 'O' Level examination with effective guidance in line with the latest English syllabus and examination format issued by the Ministry of Education, Singapore.

- Develop skills with a step-by-step approach and concise explanations for each section of the exam: Grammar, Essay Writing, Comprehension, and Listening and Oral Communication.
- Strengthen foundations in grammar and vocabulary, as well as the understanding of different text types and mixed texts needed for the exam.
- Revise and reinforce knowledge with practice questions, exercises and end-of-term practice papers.
- Prepare for the examination with examination tips and worked examples.
- Check understanding with answers provided in the back of the book.

\$16.75

1 Introduction to Accounting

Marissa has just started her own business called Sweet Candy. She is puzzled when her friends advise her to learn accounting. She only knows that accounting is a language used to communicate the financial information of a business. It has specialised terms with meanings that are unique to accounting and businesses.

What is accounting? Why is it needed?

At the end of this chapter, you should be able to:

- Understand the difference between bookkeeping and accounting. (1.1)
- Understand who a steward is and explain how the stewardship role of accounting results in the creation of an accounting information system. (1.2)
- Name the stakeholders of a business. State the financial information of a business that stakeholders are interested in and the decisions they make based on this information. (1.2)
- Understand why it is important for accountants, bookkeepers and others who are preparing, communicating or using financial information to have integrity and be objective. (1.3)
- Understand trading and service businesses and their differences. (1.4)
- State the differences between a sole proprietorship and a company. Explain the advantages and disadvantages of sole proprietorships and companies. (1.4)

1.1 What is accounting?

Accounting is the process of recording, summarising, analysing, interpreting and reporting the financial information of an organisation. The financial information is important for making business decisions.

Distinguishing accounting from bookkeeping

Accounting is a language used in businesses. It is often mistaken for **bookkeeping**.

Bookkeeping involves only the recording of business transactions. As shown below, bookkeeping is only one part of the accounting process.

Figure 1.1

Accounting involves more than just the recording of business transactions. It also includes summarising, analysing, interpreting and reporting financial information in the form of financial reports. These reports are used to communicate to the stakeholders of a business the financial results of the business and the uses of its resources.

Students who aspire to become professional accountants can look forward to exciting possibilities in the business world.

activity

Find out the job description of an accountant, and the qualifications and qualities needed. You may search the classified pages of the newspapers or the internet, or talk to someone who is an accountant or knows what an accountant is.

look it up!

Some examples of financial information are: the amount earned from selling goods, the amount of cash the business has and the expenses paid.

connect

Refer to Section 1.2 to learn more about stakeholders. Financial reports are also known as financial statements. Two such statements are covered in Chapters 9 and 10.

Chapter Review

Map It!

Apply It!

1. The diagram below shows an eclipse occurring. During the eclipse, a shadow forms on the earth.

- What property of light allows shadows to form?
- Does the above diagram show an eclipse of the sun or the moon? Explain.
- During the eclipse, some areas of the earth become completely dark while others are only partly dark.
 - On the diagram above, identify these areas.
 - Copy the diagram and draw lines (to represent rays of light) to show how these two areas are formed. [optional]

[analysing, predicting, elaborating]

- A student stands in front of a plane mirror.
 - How does her image appear?
 - The student stands 4 m in front of a plane mirror. How far behind the mirror does her image appear to be?

(c) She notices that the image of a non-digital clock in the mirror states that it is 7 pm. What is the actual time?
[elaborating, inferring]

3. **Yangming's magic trick**
Yangming places a coin in a cup as shown. Linda looks into the cup but is unable to see the coin. Yangming then pours some water into the cup. Now Linda can see the coin.

- What process allowed Linda to see the coin?
- Will the coin appear to be higher or lower when under water?
- What happens to the speed of light as it passes from the water to the air? >>

[analysing, explaining, inferring]

All About Biology: 1001 MCQs for 'O' Level
